If Not You, Then Who?

The power to lead is within anyone, especially you

All you need is a passion and purpose to pursue

Can't you see see see

People don't need a title or fancy degree

To step up up up

To use your voice to be loud and erupt

Find an issue that matters to you

Because If not you, then who?

Seize the opportunity

To make change in your community

Join an organization or start your own own own

Just remember you're never alone

Together we are in this fight

To make a difference in this world is not light

But its work we must do

Because remember, if not you, then who?
