#### COMMUNICATIONS FROM THE MAYOR.

August 22, 1921.

To the President and Members of the Common Council of the City of Indianapolis, Indiana.

Gentlemen: Herewith I present for your consideration, a report prepared by Robert H. Bryson, City Controller, showing the various estimated amounts required for each Executive Department and for other city expenses of the city government for the fiscal year beginning January 1, 1922, together with the estimated expenditures for the year 1922, submitted by the various departments of the city government.

The estimated costs in the administration of the various city departments are based upon the present costs of labor and materials. Each department has carefully and as accurately as possible surveyed the required needs for the year 1922, and has made adequate provision in its budget to meet the same.

It will be noticed that the budget for 1922 shows a decrease of \$797,332.92. This is largely accounted for because of an appropriation of \$639,000.00 included in last year's budget for the payment of temporary loans authorized by special act of the legislature passed in 1920. Also an appropriation of \$60,000, included in the 1921 budget for election expenses. These two items are not necessary in the budget for 1922.

The budget herewith submitted for the Board of Public Works shows an increase over the appropriations for last year of \$75,000.00 for water rentals on fire hydrants. This is due to an increase from \$45.00 per hydrant to \$60.00 per hydrant, which was granted by the Public Service Commission of Indiana and was vigorously resisted by the city. Notwithstanding this increase of \$75,000.00, the Board of Public Works was able to decrease its total requests \$270,000. This was made possible by the decrease in the costs of both labor and materials. Also last year's appropriation carried some items for new equipment which will not be necessary in 1922. There is also a decrease in this year's budget on account of street improvements in

front of city property which were included in last year's budget, and which is greatly decreased in 1922.

The Indiana Legislature at the special session of 1920, passed a law providing for a double platoon system for the Fire Department to be effective July 1, 1921. The inauguration of this new system requires 230 additional firemen. The old system required twenty-four hours' service for firemen with one day off in five. The new system requires a separate day and night force and thus permits each fireman to spend some time with his family.

Inasmuch as the estimates for Fire Department salaries in 1921 only provided for six months of the year, and the estimates of 1922 provide for the entire year, the budget for the Fire Department salaries shows an increase of \$220,000.00 over 1921. The budget also shows approximately \$25,000.00 increase in Police Department salaries. This is due to the fact that the Traffic Department has been greatly increased on account of the growing demands of congested automobile traffic and also additional men necessary to policing the parks adequately, which is required by a recent act of the legislature. The budget of the Board of Public Safety provides for a full quota of firemen and policemen for 1922.

Notwithstanding the large increases in salary estimates, due to the two platoon system and the increased number of police officers, the total appropriations for the Board of Public Safety are only \$195,000.00 greater than in 1921, while the increase occasioned by the two platoon system and for additional policemen, requires \$245,000.00 additional appropriations for salaries.

The total increase of estimated expenditures by the Board of Public Safety for 1922 is only \$195,000.00. Had the two platoon system not been installed, and the necessary additions to the police force been required, their estimates for 1922 would show a decrease of approximately \$50,000.

I therefore recommend to your honorable body that the tax levy for the year 1921 on each One Hundred Dollar valuation of the taxable property shall be as follows for city property:

General fund for city purposes, sixty-two cents five mills.....	\$0.625
Track Elevation Fund, three cents.....	.03
City Sinking Fund, four cents .....	.04
Board of Park Commissioners, General Fund, seven cents.....	.07
Board of Park Commissioners, Bond Fund, seven mills.....	.007
Board of Park Commissioners, Recreation Fund, two cents.....	.02
Board of Health, General Fund, seven cents.....	.07
Board of Health, School Health Fund, five mills.....	.005
Board of Health, Tuberculosis Fund .....	.005
Firemen's Pension Fund, eight mills.....	.008

Improvement Sinking Fund, four mills.....	.004
Flood Prevention Sinking Fund, one cent.....	.01
Dept. of Public Sanitation, Maintenance Fund, four cents.....	.04
	<hr/>
	.942

Also fifty cents on each poll for general purposes.

I hand you herewith ordinances for the annual tax levy for the year 1921, according to the above estimates and also an appropriation ordinance covering the various items set forth in the report of the Controller, and budgets submitted by the Government Department of City Government, and recommend that said budgets as shown in said ordinance be published as required by law and that public hearing be held thereon, and that after such public hearing the Council shall pass the same with such changes and modifications, if any, as it may deem wise.

Respectfully submitted,  
CHARLES W. JEWETT, Mayor.

August 22, 1921.

Hon. Charles W. Jewett, Mayor of the City of Indianapolis.

My Dear Sir: I submit herewith for your consideration estimates of the amounts necessary for the operation of the several city departments for the year 1922, including the following:

Department of Public Parks.

Department of Recreation, which is under the control of the Department of Public Parks.

Department of Public Health and Charities.

Department of Sanitation.

City Plan Commission.

The estimates submitted by the different boards and departments under them were carefully gone over at a meeting with the members of the Common Council and department heads.

The amounts asked by the various departments were based on the present cost of labor and materials, and the entire budget has been made up with the idea that there should be no effort to hamper the work necessary under the incoming administration.

While the budget for 1922 shows a decrease of \$707,332.92, same is due to the omission of an appropriation for temporary loan of \$639,000, and the omission of an appropriation of \$60,000 for election expense.

The appraisal of property for taxation within the corporate limits of the city as certified to me by the County Auditor is \$585,901,250.

The tax levy for general city purposes of sixty-two and five-tenths cents will amount to \$3,660,882.81. The amount received from the city's share of poll tax is \$25,000. The receipts from miscellaneous sources I estimate at \$350,000. Total receipts estimated \$4,035,882.81.

The estimates from the different departments amount to \$3,988,358.72, which would leave a balance of \$47,524.09 unappropriated, and which can be used for emergency expenses.

I would therefore recommend the following tax levy on each one hundred dollar valuation of the taxable property:

General city purposes, sixty-two cents five mills_____	\$0.625
Track Elevation Fund, three cents_____	.03
City Sinking Fund, four cents_____	.04
Board of Park Commissioners, General Fund, seven cents_____	.07

Firemen's Pension Fund, eight mills _____	.008

Improvement Sinking Fund, four mills_____	.004
Flood Prevention Sinking Fund, one cent_____	.01
Dept. of Public Sanitation, Maintenance Fund, four cents_____	.04
	<hr/>
	.942

Also fifty cents on each poll for general purposes.

I therefore recommend your approval of appropriations and levies submitted herewith.

Respectfully,

ROBT. H. BRYSON, City Controller.

REPORTS FROM CITY OFFICERS.

From the City Controller:

August 22, 1921.

Hon. President and Members of the Common Council, Indianapolis, Ind.

Gentlemen: I hand you herewith communication from Mr. D. H. Bynum of the Legal Department, asking for an appropriation of \$1,456.66 to the Department of Law for payment of judgment in the claim of Oscar Sims.

I am submitting you ordinance covering same and recommend its passage.

Yours very truly,

ROBT. H. BRYSON, City Controller.

August 19th, 1921.

City Controller, City Hall, City.

Dear Sir: I beg to hand you herewith for transmission to the Common Council an ordinance appropriating \$1,456.66 to the Department of Law for the payment of a judgment of the Industrial Board of Indiana in the claim of Oscar Sims against the City of Indianapolis.

I have detailed as far as practicable, in the preamble of the ordinance, the reasons for its necessity, but to get more fully in the matter, I beg to advise that Oscar Sims was employed as a teamster and on October 29th, 1920, a wagon turned over on one of the city dumps, catching him underneath and fracturing a vertebra of the spine. He was treated at the City Hospital for a considerable period and since his discharge has been unable to do any work whatsoever; in fact, he told me that he had to lie down for a considerable portion of the day and was unable even to be on his feet for a short period of time. He was at first in a plaster cast and some time after his discharge from the Hospital, the city purchased for him a leather jacket, which he still wears.

From my dealings with Sims since his accident, I know him to be a person with practically no education and unfitted for any work except that of common labor. Therefore, in his incapacity, he has to depend solely upon the \$13.20 per week, which is paid him by the City under the Compensation Act.

The limit of liability under Workmen's Compensation is 500 weeks not exceeding in all \$5,000. To August 10th, 1921, he has been paid approximately \$500, and if his total disability continues, will have to be paid approximately \$4,500 more. With a view, therefore, of giving him an opportunity in his disabled condition and by the payment of a portion of the total amount which might become due him, I caused a physical examination to be had by Dr. John H. Oliver, whose surgical ability is well known in Indianapolis, and Dr. Albert M. Cole for the taking of X-ray pictures for use in such examination. The physicians reported a Crushing Fracture of the First Lumbar Vertebra which would largely incapacitate Sims from performing manual labor.

Thus fortified, and with the approval of the Corporation Counsel, I entered into an agreement on behalf of the City with Sims for the immediate payment of Fourteen Hundred and Fifty-six Dollars and Sixty-six cents (\$1,456.66) and at one year from date, Nine Hundred Eighty-one Dollars and Sixty-six Cents (\$981.66) and so on each year until payment was exhausted, provided, of course, that Sims remained totally incapacitated for work. This agreement was approved by the Industrial Board.

By this agreement, I hope to provide approximately Five Hundred Dollars (\$500) for Sims to purchase a cigar business or small grocery store, which he might be able to operate with the assistance of his family, thus leaving him approximately One thousand Dollars (\$1,000) to maintain himself and family until his business should get on a paying or partially paying basis. The agreement also provides for a payment of approximately One Thousand Dollars (\$1,000) one year from August 15th, which, of course, if it is paid, will be taken care of under the budget. In this way, it is hoped that Sims may become self-supporting; at least it is giving him an opportunity and on the other hand, if he can become supporting, or partially so, compensation by the City is reduced accordingly.

Viewing the whole situation, it was the humanitarian thing to do, for Sims, and the economical thing on the part of the City.

I have to urge, therefore, that you recommend the passage of this Ordinance to the Common Council under a suspension of the rules, as Sims is without means and no weekly payment has been made to him since August 10th nor can be under the present status.

Very truly yours,

D. H. BYNUM, Claim Agent.
