His Honor, the Mayor, presented the following communication:

EXECUTIVE DEPARTMENT,
CITY OF INDIANAPOLIS,
September 16, 1895. }

To the President and Members of the Common Council:

GENTLEMEN—Some two weeks ago the various executive departments of the city submitted to a joint meeting of the heads of all the departments and boards, as required by Section 50 of the charter, estimates of the amounts of money required for the support of their respective departments for the next fiscal year, beginning January 1, 1896. After consultation concerning the same, said estimates were referred to the City Comptroller for revision. He has since filed with me a detailed statement of the several amounts, which, in his opinion, will be required by said departments for said year. In the main, there was entire accord between the heads of the several departments and the Comptroller as to the amounts asked for and granted. I submit herewith the Comptroller's report for your consideration. It will be seen by an examination thereof that the sum of \$873,703.07 will be required to carry on the city government during said year 1896. I concur in the recommendation that said sum be appropriated for the purposes indicated in the Comptroller's report. To that end, an ordinance has been prepared by the City Attorney in proper form to carry out the Comptroller's recommendations.

I also concur in the recommendation of the Comptroller that the tax levy for next year be fixed at sixty (60) cents on the \$100 of taxable values, and fifty (50) cents on each poll. On \$106,373,345 of property values and 27,225 polls in the city, as shown by the Auditor's report, there should be realized the sum of \$651,852.57. Estimating receipts from miscellaneous sources at the sum of \$243,459, which was the sum realized last year, will make a total income of \$895,311.57. To this should be added any unexpended cash remaining in the treasury at the end of the year. The miscellaneous receipts will also likely be materially increased. It will thus appear that the levy suggested will yield sufficient revenue to meet the appropriations asked for, after making a reasonable allowance for delinquency.

The change made at the late session of the General Assembly in the charter provision on the subject of cleaning improved streets, requiring that the cost of all future street sweeping shall be paid out of the treasury, necessitated the adding of \$50,000 to the usual estimates of the Board of Public Works. The \$50,000 recommended for the new Department of Public Parks, is also several times larger than any former annual appropriation for parks. In view of those extraordinary calls, it is a matter of much satisfaction to me to know that the city can get along next year without any increase in the tax levy.

The large floating indebtedness that existed two years ago has been entirely wiped out, and no financial embarrassments will exist for your successors to inherit.

Respectfully submitted,

C. S. DENNY,
Mayor.

Which was read and referred to Committee on Finance.

DEPARTMENT OF PUBLIC WORKS,
CITY OF INDIANAPOLIS, }
September 10, 1895. }

Hon. W. H. Cooper, President Common Council, City:

DEAR SIR—In submitting to the Council the supplemental contract with the Indianapolis Desiccating Company, we have thought proper and desirable that the Council be informed that this supplemental contract ratifies the contract heretofore existing between the city and the Desiccating Company. The important part

now is for the Council to pass ordinances which will require all residents to place in a convenient, sanitary and satisfactory way all garbage, refuse and night soil so that the collector can collect it. The drawer system should, in our opinion, be adopted as soon as practicable and within a certain period, and in addition to this, certain restrictions and ordinances should be made in regard to the collector—who he should be and how he should collect, and some record should be kept either in the Health Board's office, or in the office of the Board of Public Works—more properly in the office of the Board of Health—who these collectors are and what districts they patrol. We trust that the Council will consider all these matters carefully at the same time they do the supplemental contract sent to you this date.

Very respectfully,

W. B. HOLTON,
E. L. ATKINSON,
JOHN OSTERMAN,
Board of Public Works.
