RE: GO 114, 1992

Dear Dr. SerVaas:

On October 26, 1992, the members of the City-County Council passed proposal 474. That ordinance (GO 114) authorized the removal of a traffic signal at the intersection of Kelly Street and Shelby Street. While we all agree that the primary function of the referenced traffic signal was to provide emergency egress for the former IFD fire station at Kelly Street and Shelby Street, I have since been informed that the traffic signal should remain in place.

Following the meeting, the Principal at Central Catholic School expressed concern that the traffic signal ensured a much needed safe crosswalk for school children walking to and from school. It is my understanding that Councillors Tim Mullin and Frank Short have been consulted and concur with the plan allowing the traffic signal to remain and Councillor Borst called to request I not sign the ordinance.

November 9, 1992

In addition, the Department of Transportation has agreed to review all other alternatives to improve the efficiency at this intersection. Options include pedestrian push button activation and side street activation on Kelly Street to traffic delays are minimized on Shelby Street.

For these reasons I do not intend to sign GO 114, 1992. Thank you for your cooperation and understanding, I would be glad to discuss these changes further if someone has additional concerns.

Respectfully,
s/Stephen Goldsmith
