

Adjourned Meeting

Council Chamber September 21st 1858.

Council met at 7 oclock P.M. Present his Honor the Mayor and Councilmen, Cottrell, Dunlap, Durham, English, Fletcher, Greenfield, Geiesendorff, Hadley, Locke, McNabb, North, Pratt and Vandegrift.

The Minutes of the previous meeting were read and approved. Mr. Cottrell moved that the Council have a Secret Session for the purpose of hearing the report of the finance committee which prevailed the report was then read and on motion by Mr. Locke the clerk was ordered to Spread the Same on the minutes in full.

From the finance Committee

Mr. President

The finance Committee make the following report.

Stoughton A. Fletcher Jr)

Jacob Vandegrift (Finance Committee

Joseph K. English)

Mr. D. B. Culley was employed by the finance committee of the preceding council to examine the Books of Treasurer and City clerk under instruction of the following resolution adopted by the Council March 13th 1858.

Resolved.

That the Finance Committee be allowed to employ if they think fit a Skillful accountant to examine the Books of the Treasurer and clerk of the city extending Such examination back for such period as the Committee Shall deem proper for the purpose of ascertaining the manner in which Such books have been kept, wether there are any and if So what inaccurasies therein and wether the Financial Condition made by the clerk is a correct and accurate exhibit, provided that for Such Service the Said accountant Shall not be paid over one hundred dollars.

The examination was commenced and with great labour and care, has been carried to a successful termination, the result of which is herewith Submitted.

A Statement of all the errors found would encumber this report with a great deal of useless matter and therefore it has been omitted.

No attention was given the yearly Statement of the condition of the Cash account made by the city clerk for the reason that the debit Side of Cash was based upon the reports of the Treasurers, and all mistakes occurring therein found their way into the Statement of the clerks.

The following interrogetories were propounded by the finance Committee First State the amount of assessments for taxes for the years 1848, 1849, 1850, 1851, 1852, 1853, 1854, 1855, 1856 & 1857. also the amount of delinquencies returned by the Treasurers for the above mentioned years, also, the percentage of delinquencies for the Same years.

also, the name of Treasurer for each year above Stated Secondly. State the amount of warrants drawn by the clerk, without authority of the common Council if any, and by whom.

Third, State wether the Treasurers of the city from the year 1849 until the present time have made Such Settlements as were contemplated by the acts of incorporation governing the city at the time Such Settlements were or Should have been made.

Fourth. State wether there is remaining in the hands of any of the Treasurers any money belonging of right to the city if So State the names of such Treasurers, and the amount So remaining.

Fifth. State what evils exist in the present System of transacting the business of the city in the clerks and Treasurers departments, as the examination may present.

Herewith Submitted find tabular Statement marked A which Shows the amount assessed upon the tax duplicate of each year from 1850 to 1857 inclusive the amount assessed by the Treasurer, amount of illegal assessment, amount of Collections amount of delinquency, amount Stricken from the delinquent list and amount of delinquency carried to the succeeding years duplicate.

The duplicates of 1848, 1849&1850 were destroyed by fire in the fall of 1851, and not being in possession of the Statements of the years 1848, and 1849, are unable to make a Statement of them, Statement B. Shows the amount of assessments for each year after deducting the illgal assesements, amount of delinquencies, the percentage of delinquency date of report, and name of Treasurer, the Statements A. and B. answer the first interrogatory

The Second query is one which required a great deal of Search and although it was impossible to find the record of proceedings direct authority for many warrants issued, yet there was implied authority for most of them, and those for which authority could not be found, either direct or implied, it was an oversight in writing up the records, only one case could be found were warrants were issued clearly without authority of the Council, and that was during the term of Service of Joseph T. Roberts, who drew warrants upon the Treasury to pay his own Salary to the amount of 9.26 nine dollars and twenty six cents, over and above the amount allowed by ordinance which is charged him in his account accompanying this report

The books, Containing the Statements of the names of those returned delinquent for the non payment of taxes, and amount thereof, for the years 1851, 1852 and 1853 were not in the possession of the City Clerk, and could not be found elsewhere, These Books were returned by A.F.Shortridge the then Treasurer, the gross Sum of these Yearly Statements were obtained from the Treasurers Yearly reports, the correctness or incorrectness of them cannot now be determined in the examination they were recognized as correct.

The list of delinquents for the non payment of taxes for the years 1854 and 1855 were not returned in accordance with requirements of Section 53 of an act of Incorporation of cities, approved June 18th 1852 and adopted for the government of the city March 7th 1853 by the common council. The causes of failure to enforce the payment of taxes was not Stated nor the affidavit verifying the correctness of Said report is not attached.

The Treasurer failed for the financial years 1856-57, 1857-58 to make Such Settlement Sheets as were required by law the Statement giving the names of delinquents for non payment of taxes, and amounts due, does not State the causes of failure to enforce the payment of taxes, nor are the required affidavits verifying the correctness of Said reports attached. In addition to the foregoing the delinquent list of 1857 contains the names of Several persons whose taxes are paid before the time when the list should have been returned, and Several whose names do not appear upon the list were defaulters on return day, this is owing to the fact that the list was commenced in February and not completed until May.

In answer to your fourth inquiry the examination discloses the fact, that there is due treasury by the following persons the Sum Set oppisite their names.

| | |
|--------------------------------|------------|
| John S. Spann former Treasurer | 2.00 |
| A. F. Shortridge | \$ 2686.84 |
| Henry Vandegrift | 536.82 |
| Francis King | 173.09 |
| | \$ 3398.75 |

Mr. Spanns indebtedness grows out of an erroneous footing in his monthly report of December 1850.

Mr. Shortridge from errors in duplicating the payments of his percentages for the year 1853, 54 and 1854-55 also in not charging himself with collection of taxes on delinquent list of 1851, and in failing to charge himself amount of a note collected the Same year. Errors in his favour were discovered reducing the Sum to the above mentioned amount.

Henry Vandegrift from errors in footing of delinquent list and not correctly copying the footings of the tax duplicate in making up his Statement in returning property as illegal

which was also upon his delinquent list, and in returning as a credit the Dickman note which had been paid him

Mr King recelepted to Mr Vandegrift for the Sum of \$1088.73, and charged himself with the cash reciepts \$911.61 the balance being amount of notes returned by Mr Vandegrift, and afterwards acting under the impres

Page 265

September 21st 1858

sion that he had charged himself with the full amount of the reciepts he claimed credit for them, which would leave due from him the Sum of \$173.09 after deducting amount charged as having been recieved on Pettys note.

There is nothing on the books indicating that any of the above persons were aware of these Sums being due from them.

It is our pleasant duty to inform the Common Council that Messrs Spann, Vandegrift and King have paid promptly the amounts above Stated discovered to be due, from them and that Mr Shortridge has given his notes at one two and three years with interest Secured by morgage upon real estate in Indianapolis for the amount due by him.

There is nothing on the books indicating that any of the above persons were aware of these Sums being due from them.

There is no evidence upon the delinquent records of there being any examinations made, as to their correctness, either by the Finance Committee or by the City Clerks, making it necessary to foot them carefully during the examinations.

Upon the tax duplicates occasional notes were made Stating that the Treasurer had abated the tax assessed against Several individuals. Such as Dog tax, erroneous. "Poll. error" "Personal property, too much" these tax abatements, by the Treasurer was a source of much embarrassment, during the examination, no abatement of taxes Should hereafter be allowed the Treasurer, except by order of the Common Council.

The books in the City Clerks office were not written up with any System, each clerk haveing a System of his own, and gave but little information.

The "Register of orders issued" did not in all cases fully and clearly Specify for what purpose the money was paid, nor did the record of proceedings of the Common Council furnish the information.

The record for information necessary to be known in writing up the books of the city, plainly demonstrating that the Council Should direct the city Clerk to keep the Books by double entry, and that vouchers properly numbered, for all warrants drawn upon the Treasury Should be filed, Also to require all officers of the city, avouching for the correctness of an account, to State for what purposes the articles were purchased, or if labor where preformed and the nature of the account.

Absence of indexes to the records of proceedings No^s 1, 2 & 3, make it very difficult to find information Sought for in them. The council Should immediately direct, that they be

properly indexed

Much difficulty was found in tracing back the delinquences appearing upon the duplicate of 1857 owing to the absence of the number of the preceding duplicate from whence the delinquency was obtained

Herewith find the names of persons returned as delinquent for non payment of taxes for the year 1857, and a Statement of the amounts to be carried forward to the, tax duplicate of 1858, after deducting the Sum assessed for school purposes

Page 266

September 21st 1858

Statement "C" Shows the number, and amount of Sundry warrants drawn upon the Treasury remaining in the city Clerks office unclaimed.

Statement "D" Shows the condition of the cash account each financial year from 1849. - 50 until the 1st of March 1858.

Statement "E" Shows the indebtedness of the city at the time of the Several dates mentioned, also the amount owing to the city over and above the amount owing by the city, at the time of the Several dates mentioned

Statement "F" Shows the balance Sheet of the Ledger on the 1st of March 1858, from which it appears that the city has due her \$22,388.64 more than She owes.

Statement "G" Shows the receipts and Expenditures of Cash during the financial year ending March 1st 1858.

Statement "H" Shows the amount of cash receipts, and amount of Cash appropriated.

Statement "I" Shows the amount of Scrip issued for the improvement of Streets, under the operation of Section 13 chapter 1 of an ordinance for the government of the city adopted May 27th 1848, but long Since, repealed

Statement "J" Shows the amount of Cash appropriations for Hospital Buildings and grounds, and the cash expenditures therefore

Statement "K" Shows the amount of City Bonds issued and amount now unredeemed.

Statement "L" Shows the amount of notes given by the city and the amount paid, Showing the Sum \$5,318.05, yet unpaid, being the note given by N. B. Palmer agent of the city to Winslow Lanier & Co New York, for the purpose of obtaining the possession of 14 of the 21 bonds, pledged

with them by J. D. Skeen # Agent, for the Sum of \$5,000 which amount never reached the City Treasury.

Statement "M" Shows the amount of Notes due the city

Statement "N" Shows the condition of the account of J. D. Skeen agent.

Statement "O" Shows the condition of the account of A. Wallace Chief Fire Engineer. Mr Wallace has an unsettled account against the city that will probably be greater than the amount, charged him upon city books, owing, to the purchase of real estate for purposes of the city building the Western and Union Engine Houses, purchase of hose etc.

Statement "P" Shows the condition of J. T. Roberts, account, Judgement was obtained upon this account in the year 1851 and has not yet been collected

All of which is Respectfully Submitted
D.B. Culley

Mr Pratt presented the following.

To the Honorable Common Council
of the City of Indianapolis.

Page 281

September 21st 1858

Your petitioners, would respectfully, represent that they are about to occupy a room in the basement of the Metropolitan Theatre as an Agricultural Ware Room, and that they are desirous of having a Hay and grain Scales as an appendage thereto. They would therefore ask your honorable Body to grant them the privilege of erecting Such Scales on Tennessee Street oppisite the North end of the lot on which the Said Metropolitan Theatre Stands, with the understanding, that the Same Shall not interfere with the public throughfare or convenence, and be removed whenever the Council Shall deem it injurious to the public interest, or for any other good cause, and as in duty bound your petitioners will ever pray &c
September 18th 1858

Park & Braden

The above petitioners have my consent in full for the erection of Said Scales

V. Butch

On motion of Mr Lock the prayer of the petitioners was granted.

By Mr Cottrell,

A communication from John. S. Bobbs and T. M Stevens contradicting Statement of G. H. Bicking on the reputed authority of I.M. Phipps that he had not Sold a portion of the property on McCarty Street as represented to the Council as owned by him in a petition for Street improvement.

The above communication on motion of Mr Vandegrift was laid on the table.

From Officers

From City Engineer

The Civil Engineer reports to the City Council

1st That Michael O. Sullivan has finished the grading of Market Street, and and grading and graveling the Sidewalks, between West Street, and the Canal The citys part of the estimate amounts to \$9,12 (1712)

2 Thomas Ferriter has recieved a partial Estimate for the work done on Washington Street, between Alabama and New Jersey Street and the Citys portion thereof is \$22.50, which the Council will please allow (1709 1710)

3 That Michael O.Conner, on the 27th ult, contracted with the city

Page 282

Council to grade, and gravel Liberty Street, between Washington and New York Streets, has not yet commenced operations. Some order Should be taken to compel him to proceed with the work or relinquish his contract.

On motion the report was recieved and clerk ordered to issue warrants to person named in the report.

From Chief Fire Engineer

To the Hon Mayor and Common Council of the City of Indianapolis Gentlemen.

Permit me to present to your honorable body the following report, at this time our department with few exceptions is in good Condition, and we are prepared to prevent any building from burning down, if we have a Sufficiency of water, you will remember that at your last meeting one of the honorable Councilmen from the Seventh Ward asked for a cistern to be located on Alabama Street near Pogues run, and as it was not granted permit me to State a few reasons why I Suggested that there be a cistern located at or near the above point, and here permit me to remark that there is no part of our city that is so destitute of Water as that part bordering along Pogues run from the Union Depot to Noble Street, and perhaps there is no locality were were there is more money invested. You gentlemen are aware that nearly all our Manufacturing interest is there, and also our Rail Road interest, we have invested in manufacturing between the above named points about \$200,000 dollars, and the different Rail Road Comparys have invested about \$300,000 dollars in depots, machine Shops, Cars, Locomotives &c &c now this property is beyond the reach of any cistern unless we Splice our forces, which is difficult to accomplish often and is attended with great loss of time, you perhaps are aware that we have no cistern between Washington Street and Pogues run and between the above named points, that is to say, between the Union Depot and Noble Street, and you are well aware gentlemen, that were our manufacturing establishments destroyed by fire the blow would be felt by our whole business community and that would not be all, a large number of our mechanics and labouring men would be thrown out of employment, which would be a great Calamity, now the question is how Shall we have a necessary Supply of the element, it is well know to most if not all of you, that in the Summer time that there is but little water in the run, and in the winter it is frozen to the bottom, So you See that it is not reliable. Now how Shall we remedy the evil here in view of the poverty of the City permit me to offer a Suggestion which is this that you cause to be dug wells in the bottom of the run Say six feet

in diameter and five feet deep. to have them walled up the Sides without mortar and then to Spring an arch and lay the brick in cement mortar, with an Iron Cap, the top of the well, to be level with the bottom of the run, to place two of

Page 283

at Pennsylvania Street, two at Delaware Street, one between the Bridges at Virginia Avenue, and here I will State that between the Central depo and the Bellfontaine, the Central Company about four years ago dug a well which is about Seven feet in diamter and will Supply a large amount of water the well is now covered up, as the Company abandoned its use, they proposed to Mr Jacob Fidler who was then chief Engineer, that if the city would arch it over and put a cap on it, that the City might have it for fire purposes, as nothing was done about it at that time, the Company, covered over, they now make the Same propisition, I would Suggest that you have it arched over, and a cap put on it, as it is in the just the right place, the wells in the bottom of the creek will cost I think not over twenty dollars each, we would want Six of them, they would afford an abundant Supply of water without the expense of filling by means of Pumps, permit me again gentlemen to call your attention to the fact that the hose, belonging to the City are not properly cleaned Some two months ago I recommened that you purchase a good force pump for each of the Engine Houses, it is impossible to properly Clean hose without Some better means than a rag or hand brush, if they are propeely cleaned they will last on an average about ten years, as it is Some of the hose that where purchased about three years Since. are unfit for use, and unless Something is done the city will be compelled to purchase within three years about twenty five hundred feet of New Hose, which will then cost two Thousand dollars the pumps will cost about two Hundred and Seventy five dollars all put up Complete, all of which is respectfully Submitted

Joseph. W. Davis

Chief Fire Engineer

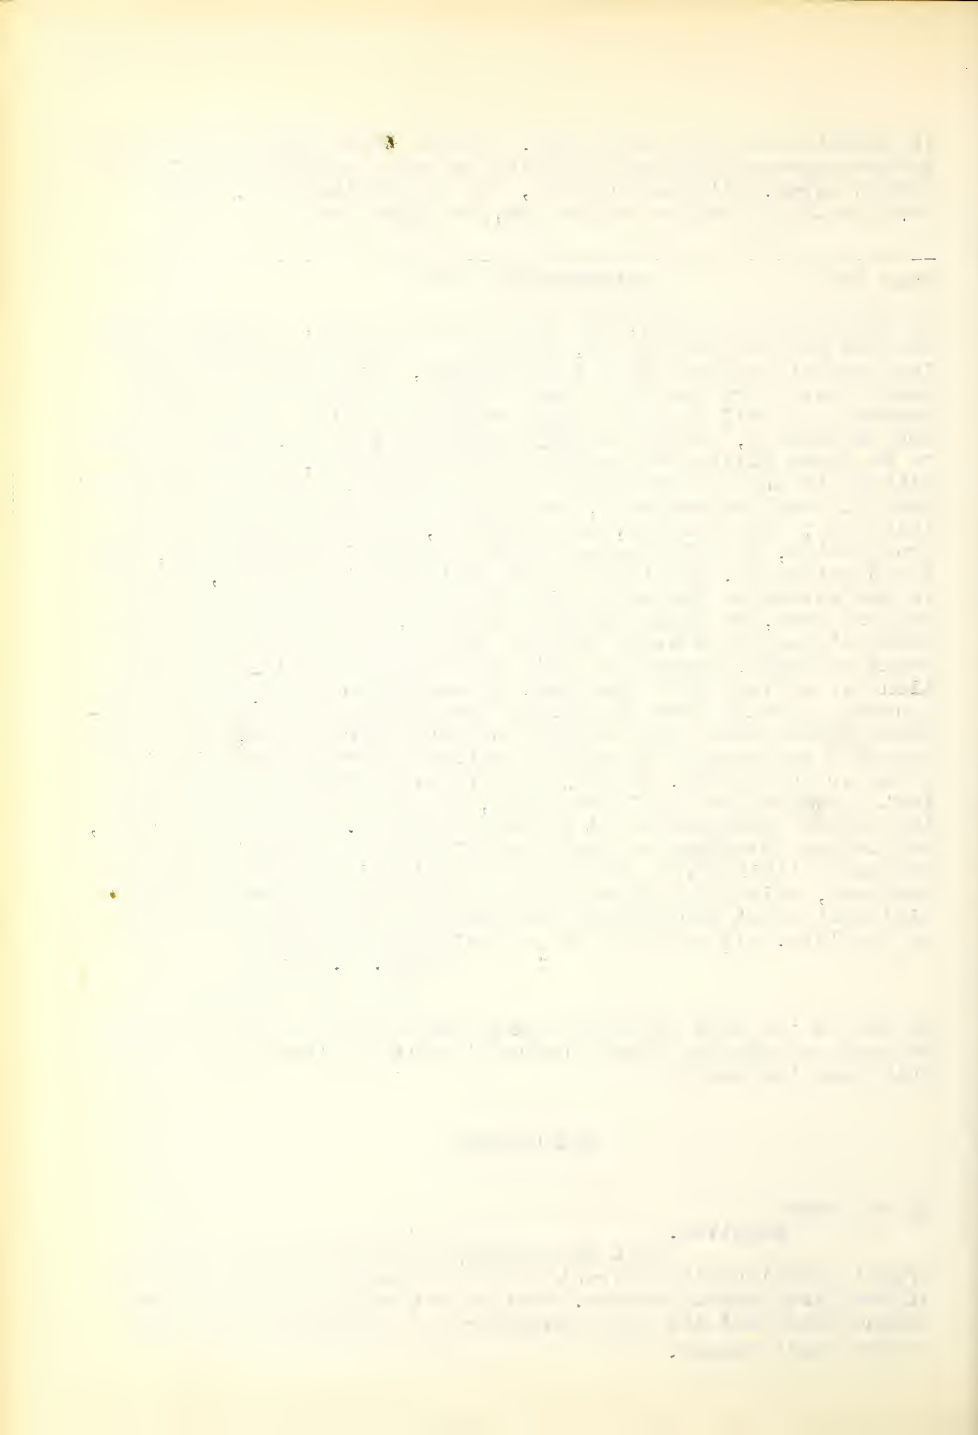

On motion the part of this report that refers to well in Pogue's run was referred to Committee on cisterns and the balance was laid upon the table

RESOLUTIONS
