SPECIFICATIONS.

1. The contractor shall collect, remove and dispose of all garbage and dead animals, as defined in these specifications, accumulating within

the present corporate limits of the City of Indianapolis, and in any extensions thereof.

2. The word "garbage" wherever used herein shall be taken to mean all organic household waste, offal, animal and vegetable matter, such as has been prepared for or intended to be used as food, or shall have arisen in the preparation of food. The contract shall also be construed to mean that the contractor shall collect, remove and dispose of all garbage from commission houses, wholesale and retail grocery stores, hotels, sanatoria, hospitals, fish stores and stands, restaurants, eating and apartment houses.

3. Garbage shall be collected at all places in the city, except at public markets, from May 1st to November 1st, during each year of the existence of this contract, at least three times a week; from November 1st to May 1st, during each year of the existence of this contract, at least twice each week: Provided, however, that collections from commission houses, hotels, hospitals, fish stores and stands, restaurants and eating houses shall be made each day. It is understood that collections of garbage from apartment houses shall be obligatory on the contractor, and the owners shall provide and maintain garbage receptacles on the ground floor of said apartment houses, which receptacles shall be water-tight, easy of access to the collector, and easy to empty, the size, plan of construction and location of which receptacles shall be approved by the Board of Public Health and Charities, and which shall be at all times kept free from all offense to sight or smell, and from unsanitary conditions.

4. The exclusive right and privilege of collecting, removing and disposing of all garbage and dead animals in the City of Indianapolis will be given to the successful bidder, under the contract to be entered into between said city and said successful bidder, and said contract will provide that no other person shall carry, convey or transport through the streets, alleys or public places of the city, any such material, without being subjected to the penalties prescribed by the laws of the State and ordinances of the city, or the rules of the health departments of said State and city. And the city agrees, on her part, to prevent, as far as may be lawful, any person other than the contractor, from gathering, hauling, removing or carrying any garbage or dead animals within the city limits.

5. The contractor, in the collection and removal of the garbage under the contract to be made, shall, for said purpose, provide himself with water-tight vessels, tanks or boxes, mounted on two or four wheels, which shall, when containing garbage or matter capable of giving off noxious odors, be securely and tightly covered on top in a manner to be approved by the Board of Public Health and Charities, so as to prevent the contents or any odor escaping therefrom, and when unloaded, after the delivery of each load to the desiccating plant, each vessel, wagon or tank shall be thoroughly washed and disinfected to the satisfaction of the Board of Public Health and Charities, and the vehicles drawing such vessel, box or tank shall be at all times so loaded and driven that none of the material shall fall upon the ground, run out or spill therefrom. All vehicles carrying such vessels, tanks or boxes shall have on both sides thereof a sign with the words, "City Contractor Garbage Cart," or "City Contractor Garbage Wagon," painted thereon, together with the number of the vehicles, to be at all times plain and unobscured, in black letters not less than four inches in length, on white background; the number of the wagon to be selected and registered in the office of the Board of Public Health and Charities.

6. The contractor, before beginning collection under this contract, shall divide the city into districts, and shall deliver to the Board of Public Health and Charities a list of the boundaries of each district

and the days of the week on which he plans to make collections. The Board of Public Health and Charities may, within thirty (30) days after beginning such collections according to such districts, make such changes, alterations and additions thereto as may, in the judgment of said Board, be necessary to insure the efficiency and thoroughness of such collections. Thereafter, on November 1st and April 1st in each year of this contract, such contractor shall revise such districts and deliver such revised list to the Board of Public Health and Charities, which may, for thirty (30) days, make such changes, alterations or additions to such districts, as, in the judgment of said Board, may be necessary to insure the efficiency and thoroughness of such collections. Nothing in this provision shall be construed to mean that the contractor shall not at all times furnish a sufficient equipment to collect and remove all garbage and dead animals as hereinbefore provided. The contractor shall not be permitted to depart from the time fixed for collection, except by obtaining the written consent of the Board of Public Health and Charities, the object being that all collections from houses in each district shall be made on certain days, and as nearly the same hour of the day as possible.

7. The contractor will furnish each householder, on May 6th and November 6th of each year of this contract, with a printed list of the days on which he will make collections, stating in such list the time of day, as nearly as possible when such collections will be made. The printed list shall be on cardboard not less than eight inches by ten inches in dimension, and shall contain such extracts of the city's ordinances governing the responsibility of the producer of garbage, the responsibility of the collector for removal, etc., and such recommendations and rules as the Board of Public Health and Charities may desire to place on said card.

8. It will be the duty of every resident householder, tenant, hotel keeper, boarding house keeper, all parties or persons occupying dwellings within the City of Indianapolis, commission houses, wholesale and retail dealers, sanatoria, hospitals, fish stores and stands, restaurants, eating houses and owners of apartment houses within the City of Indianapolis, under a proper ordinance or ordinances enacted or to be enacted by the Common Council, to provide or cause to be provided, and at all times to keep or cause to be kept or provided portable vessels, tanks or receptacles for holding garbage; said vessels, tanks or receptacles to be perfectly water-tight, and so kept, with a handle or handles on the outside, and provided with a tightly fitting cover, which cover shall not be removed except when absolutely necessary, or such other design of vessel, tank or receptacle can be used as shall be approved by the Board of Public Health and Charities. Said vessels, tanks or receptacles shall be kept or placed in the rear of the house, or in the basement areas, or passageways most accessible to be collected, and never upon the street, alley, sidewalk or other public place, and shall be of a capacity of not less than one bushel nor more than three bushels. All such vessels, tanks or receptacles shall be accessible to the collector when called for, and if removed by him, shall be returned by him to said place or places without unnecessary delay, and no person, except for such purpose authorized, shall in any manner interfere with said vessels, tanks or receptacles or the contents thereof. In case of dispute, the Board of Public Health and Charities shall decide as to the location to be selected for the placing of vessels, tanks or receptacles by the owner or tenant.

9. The contractor for collection will be required to furnish to the Board of Public Health and Charities immediate notice of the failure of any householder to have garbage ready for collection on the day set for such collection.

10. Upon complaint or complaints having been made of a failure on the part of the contractor to properly collect garbage, it will be the duty of the Board of Public Health and Charities to investigate such complaint, or complaints, and if, in its judgment, such failure to collect was the fault of the contractor, it shall report such violation or violations of the contract to the Board of Public Works, who shall, upon the next succeeding allowance made to the contractor for work done, deduct a sum not less than \$1.00 and not exceeding \$5.00 for each and every violation so reported, and the contractor will be required to relinquish all right, title and interest in and to such deduction.

11. It will be the duty of the Board of Public Health and Charities to investigate all complaints made of failures on the part of the householders, tenants, hotel keepers, boarding house keepers, all parties or persons occupying dwellings within the City of Indianapolis, commission houses, wholesale and retail dealers, sanatoria, hospitals, fish stores and stands, restaurants, eating houses, and owners of apartment houses to comply with the provisions of the ordinance requiring the placing of vessels, tanks or receptacles for emptying by the contractor, and to prosecute all offenders under such provisions.

12. The contractor shall provide himself with an office, conveniently located, and furnished with both telephones. A clerk shall be regularly employed to answer all complaints made and to promptly dispose of the same.

13. The Board of Public Works and the Board of Public Health and Charities shall be the exclusive judges as to whether the terms and conditions of the contract are being complied with. The Board of Public Works, upon the written complaint of the Board of Public Health and Charities that the terms of the contract are not being complied with, shall call upon the sureties on the bond to carry out the provisions of such contract to the satisfaction of the Board of Public Health and Charities and the Board of Public Works, and on their failure so to do, after a written notice by the Board of Public Works of five days, the city, by and through its Board of Public Works, shall have the right to declare the contract null and void, and to relet the work or any part thereof, and such annulment shall not entitle the contractor to any claim for damages on account thereof, nor shall it affect the right of the city to recover damages which may arise from such failure; or, instead, the Board of Public Works shall have the power to provide for the collection and removal of such garbage and household waste as it may deem best for the interest of the city. The cost of such collection and removal shall be paid from any sum to which said contractor would have been entitled had he completed the contract, and when that sum shall be exhausted, then out of any money which may be appropriated for such purposes by the Common Council, until the term for which the contract was originally made shall have expired, and the City of Indianapolis shall be entitled to maintain a suit in any court of competent jurisdiction against said contractor and his sureties to recover the money so appropriated, expended and paid out, and in such suit the amount of the city's recovery shall be such sum as it was compelled to expend in order to procure the collection and removal of garbage which the contractors should have collected and removed under the contract.

14. The contractor shall pay any judgment which may be taken against said city, either alone or jointly with said contractor, on account of any injury or damage to persons or property by reason of the carrying out of this contract caused by the fault of the contractor. Provided, that if the city is sued alone for such injury or damages, due notice to the contractor to appear and defend said action shall be given.

15. A proper contract to the approval of the Board of Public Works shall be entered into, and all the terms and conditions of said contract and specifications shall be binding upon the parties, their successors and assigns.

16. The Board of Public Works, subject to the terms and conditions of the contract, shall make and allow quarterly estimates of the amount of work to be done and sum due therefor at the end of each quarter of the fiscal year, and the sum so estimated and allowed shall thereupon be due and payable to the contractor, and said Board shall issue to the contractor a proper voucher therefor.

17. The contractor shall give to the residents of said city and county preference in the employment of all labor necessary in performing the contract, and failing to do so shall forfeit to said city the sum of five dollars for each failure to observe this stipulation.

18. The contractor shall report to the Board of Public Health and Charities, at the end of each month, the amount of garbage collected, making, at the same time, any other suggestions he may desire to make, or giving such other information as may be required by said Board of Public Health and Charities.

19. The contractor shall be required to haul all garbage collected, so far as practicable, through the alleys in the city, not making use of the prominent business or residence streets. In all cases of dispute regarding the using of an alley or street as an avenue for the hauling of garbage, the Board of Public Health and Charities shall decide which route to haul upon. Said Board shall notify the contractor or his agents in writing of its decision, and said Board shall investigate and report to the Board of Public Works each case wherein the contractor or his agent or agents, after the above due notice in writing, repeat the offense, and said Board of Public Works shall impose for each offense a fine of not less than \$1.00 nor more than \$5.00 for the first offense at any one place, nor less than \$5.00 nor more than \$10.00 for any subsequent offense at the same place, which amount shall be withheld from the contractor when settlement is made.

20. Whenever, after the contract for the collection, removal and disposal of garbage shall have been in force and effect, there shall be annexed to the City of Indianapolis any additional territory, the Board of Public Works may order and direct the contractor to begin and continue collections of garbage within such annexed territory, according to the terms and conditions of the specifications hereinbefore provided, and the amount of compensation for such additional services shall be determined in proportion to the area annexed to said city and the area of said city at the date of the beginning of such contract for the collection, removal and disposal of garbage.

21. Garbage must be disposed of in a sanitary manner, not prejudicial to the public health. The process must be not only not offensive or noisome in its operation, but must also be effective and sanitary in the destruction or reduction of garbage. The plan of disposal in use must be approved by the Board of Public Health and Charities. The said Board of Public Health and Charities shall report to the Board of Public Works when said contractor is disposing of the garbage in a manner prejudicial to public health or interest, and shall be sole judge of this condition. Said Board of Works may then declare this contract null and void, or assess penalties, or both, in like manner as if the contractor had forfeited or refused to accept the contract, and the bondsman of the contractor may be called upon to fulfill the contract, or the city itself may undertake the work, the cost of which shall be assessed against the contractor, and to be retained from any moneys owing to him by the city, or his bondsman be called upon to pay the same.

22. Each bidder shall submit with his bid drawings distinctly and clearly showing his method by which it is intended to dispose of the garbage and dead animals; but no bid will be considered that contemplates the dumping of such material either within or without the corporate limits of the city, or of feeding the same to animals.

23. Each bidder must satisfy himself by his own observations and figures, as to the quantity of work to be done, and must bid to collect, remove and dispose of all garbage and dead animals, regardless of the quantity.

24. The contractor shall dispose of all night soil delivered to him at the plant established and maintained for that purpose, during the hours from six o'clock a. m. and six o'clock p. m., during the months of May, June, July, August, September and October, and from seven a. m. and five p. m., during the months of November, December, January, February and March. The Board of Public Health and Charities shall prescribe in what manner said night soil shall be disposed of. And should the contractor fail to dispose of the same in the manner prescribed by said Board, it (said Board) shall have the right to cause said night soil to be so disposed of and charge said contractor with the expense thereof, and the amount of such cost shall be deducted from the amounts due said contractor under his bid.

25. If the contractor so desires it, the City of Indianapolis shall furnish free of rent such portion of the land owned by the City of Indianapolis and known as "Sellers' Farm" as may be necessary for the maintenance and operation of a plant: Provided, however, that the contractor may furnish his own ground nearer to the City of Indianapolis, such location to be approved by the Board of Public Works and the Board of Public Health and Charities of said city.

26. The contractor shall furnish bond in the sum of fifty thousand dollars (\$50,000) in case the contract is let for a period of five (5) years, and in the sum of one hundred thousand dollars (\$100,000) in case the contract is let for a period of ten (10) years, for the faithful performance of his contract. Such bond shall be executed by a responsible surety company or two freeholder residents of the City of Indianapolis, each of said freeholders to qualify as the owner of real estate in Marion county, Indiana, in the sum of twice the value of the amount of such bond.

27. The contractor shall agree to complete a plant, together with all equipment, vehicles and other equipment contemplated in these specifications, within six (6) months after the contract shall have been approved by the Common Council of the City of Indianapolis.

28. The contract shall be in force and effect for a period of five (5) or ten (10) years from May 26, 1912, as may be determined by the Board of Public Works after receipt of proposals, and in said contract it shall be provided and stipulated that at any time not less than three (3) nor more than six (6) months before the expiration of said contract the city shall have the option, under any authority conferred by law, to become the purchaser of all the tangible property constituting the plant and equipment of the contractor for the collection, removal and disposal of garbage and dead animals, and for the disposal of night soil, by the payment to the contractor, or his successors or assigns, the fair market value of such tangible property, and in case the said city, through its proper officers, and the said contractor, his successors or assigns are unable to agree as to the fair market value of said tangible property, the same shall be determined by three (3) citizens of Indiana, who shall be freeholders and voters, one of whom shall be chosen by the Mayor of said city, one by the said contractor, his successors or assigns, and the third by the person who shall then be judge of the Circuit Court of

Marion County, Indiana, and the finding of said committee as to such value shall be binding upon both said city and said contractor, his successors or assigns, and such city will, by the terms of said contract, be bound to pay, and the said contractor, his successors or assigns bound to receive, the said amount as the purchase price of said tangible property: Provided, that nothing contained herein nor in said contract shall be so construed as to compel said city to purchase said property unless it, by its officers, elects to have the market value of the same appraised as hereinbefore provided.

GENERAL STIPULATIONS.

(1) The contractor shall not assign or transfer the contract or sublet any of the work embraced in it without the consent of the Board of Public Works.

(2) The contractor shall conform to the directions of the Board of Public Health and Charities as to the time in which the garbage shall be collected, as to the intervals between the collections of the garbage, and the mode of doing the same.

(3) If the machine or machines intended for use are patented, the bidder must exhibit proof of his right to use the machine or machines in the City of Indianapolis, and will further be required to execute a bond of indemnity holding the city harmless from any suits for infringement of patent which may arise under the contract.

(4) Whenever the contractor is not present on the work, orders will be given by the Board of Public Health and Charities, or its duly authorized agents, to the superintendents or overseers who may have immediate charge thereof, and shall by them be received and strictly obeyed. And if any person employed on the work shall refuse or neglect to obey the directions of the Board of Public Health and Charities, or its duly authorized agents, in anything relating to the work or shall appear to the said Board of Public Health and Charities to be incompetent, disorderly or unfaithful, he shall, upon the order of said Board of Public Health and Charities, be at once discharged and not again employed on any part of the work.

(5) The contractor shall be required to observe all city ordinances in relation to obstructing streets, keeping open passage ways and protecting the same where exposed, maintaining signals, and generally to obey all laws and ordinances; and said contractor shall agree to indemnify and save harmless the City of Indianapolis from all suits and actions of every kind and description brought against the city for or on account of any injury or damages received or sustained by any party or parties, or by or from the contractor, his servants or agents, in the fulfillment of the contract; and it shall be further agreed that so much of the money due to the contractor under and by virtue of the contract as shall be considered necessary by the Board of Public Works may be retained until all suits or claims for damages as aforesaid shall have been settled and evidence to that effect furnished to the satisfaction of said Board of Public Works.

(6) To prevent all disputes and litigation, it shall be further agreed by the parties to said contract that the Board of Public Health and Charities shall in all cases determine the amount or quantity of the work which is to be paid for under the contract, and it shall, with the aid of the Board of Public Works, decide all questions which may arise relative to the execution of the contract on the part of the contractor, and its estimates and decisions shall be final and conclusive.

(7) Nothing in these specifications shall be construed as a waiver or surrender by the city of any of its police powers, or of the right of

the Common Council at any time hereafter to pass necessary or reasonable police ordinances, or of the Board of Health and Charities to adopt necessary and reasonable rules or regulations, in the interest of the public health and welfare, in relation to any of the matters contained in these specifications, or in any contract based upon these specifications.

Should the successful bidder not be incorporated at the time the contract is awarded, such bidder may, before such contract is entered into, incorporate under the laws of Indiana for the purpose herein contemplated.

(4) Each bidder or firm of bidders shall accompany his or their bid with an affidavit that such bidder or bidders have not directly or indirectly entered into any combination, collusion, undertaking or agreement with any other bidder or bidders to maintain the price of any work or service bid upon, or to be done or furnished under the proposed contract, or to prevent any other bidder or bidders from bidding, or to induce any bidder or bidders to refrain from bidding on such contract and work, and that such bid is made without regard or reference to any other bid or bids, and without any agreement, understanding or combination, either directly or indirectly, with any other person or persons with reference to such bidding in any way or manner whatever.

(5) All prices must be written in words, as well as figures.

(6) Each bidder must furnish with his bid a certified check on some responsible bank doing business in the City of Indianapolis, made payable to the order of the Board of Public Works, in the amount of twenty thousand dollars (\$20,000) which sum shall be forfeited to the City of Indianapolis as liquidated damages in case the bidder submitting the same shall be awarded the contract and shall not execute the same within ten (10) days after the acceptance of the bid, and furnish the bond required within ten (10) days after the approval of the contract by the Common Council of the City of Indianapolis by ordinance and the taking effect of the same.

(7) In case the contract be not awarded to the bidder, or be not approved by ordinance of the Common Council as aforesaid within ninety (90) days after the approval of said contract by the Board of Public Works, or if so awarded and approved and the contract and bond duly executed, said certified check shall be returned to the bidder on demand.

No bid will be considered by the Board of Public Works which is not accompanied by such certified check.
