By Mr. Loomis—Petition:

INDIANAPOLIS, June 4, 1866.

To the Mayor and Common Council of the City of Indianapolis:

The undersigned, residents on Huron street, respectfully ask that a vacant lot situated on said street, south side, between Pine and Cedar streets, be immediately filled up. As it now stands it is a complete nuisance to the neighborhood, there being a stagnant pool on it, from which, during the warm weather, a most offensive smell arises. It is kept constantly stirred up by hogs and ducks, and if allowed to remain in its present condition must

cause pestilence and disease. The owner of the lot cannot be found by any of the petitioners, and it is believed that he is not a resident of the city.

E. G. Barrett,	Jos. Alexander,
John Many,	Joseph Bernauer,
S. W. Junken,	D. L. Paine.

OFFICE BOARD OF PUBLIC IMPROVEMENTS, }
Indianapolis, May 30, 1866. }

To the Mayor and Common Council of the City of Indianapolis:

GENTLEMEN:—The Board of Public Improvements, to whom the bids were referred, would respectfully report to your honorable body that they find that S. H. OFFICE BOARD OF PUBLIC IMPROVEMENTS, }
Indianapolis, June 4, 1866. }

To the Mayor and Common Council of the City of Indianapolis:

GENTLEMEN:—The Board of Public Improvements and Committee on Streets and Alleys, to whom the matter was referred, would respectfully report to your honorable body that they have examined the street improvements being made on Stevens and Elm streets, and are at a loss to recommend anything at this time. There is a possibility of the water of Virginia river being raised, so as to make a surface drainage for that stream, by commencing

at the east corporation line. If this cannot be done, a sewer will have to be made from some point near Noble street at its junction with Virginia Avenue. This will be a great expense, and at the suggestion of the Civil Engineer, we would recommend that Mr. J. W. Brown and Mr. Cunningham be employed to assist the Engineer in making a thorough examination of that location and report the best plan for its drainage.
