## CITY ATTORNEY.—Continued.

Page

As to the propriety of introducing an ordinance repealing the ordinance relieving the Citizens' Street Railway Company from improving between their tracks and two feet on each side, said officer reported that an ordinance passed February 21, 1870, relieves said company from such assessments until January 1, 1878, and therefore can not be collected of said corporation until after such date.....	468
That the Council has the authority to order the removal of I., C. & L. Railroad water tank from Louisiana street east of East street.....	469
That alley south of Pogues Run, running from East to Cook street, can not be opened until appeal of city from a perpetual injunction obtained by Spiegel and others be determined by the court.....	990
That city can not forbid or prevent the C., C., C. & I. Railroad Company from obstructing the intersection of Barrow [Columbia] street with the Pendleton Road, said street never having been laid out across the strip of ground where the complained-of obstruction exists, and that said street must first be formerly extended across said track and ground before a remedy for the obstruction can be sought.....	1023
That the City Council may refuse or regulate the right of way over or along the streets, etc., of city, but, having once given such right of way, not so conditioned, can not afterwards compel a railroad company to tunnel or bridge the city streets.....	1069
With Committee on Revision of Ordinances, is of opinion that present ordinances on the subject of the obstruction of streets by railroad trains, are faulty in the fact that the penalty affixed by said ordinances attaches to the <i>person</i> creating the obstruction, and indicating that a new ordinance could be framed holding the <i>company</i> responsible for the acts of its employes. [City Attorney ordered to draft and report such an ordinance.].....	1093
That the Council has no power to compel the Water Works Company to build a bridge over west arm of the canal.....	1283
That remonstrance or protest of Andrew Wallace and others against the paving of Market street, between Pennsylvania and Delaware streets, had no valid bearing upon the legality of the ordinance providing for making such improvement.....	1374
That S. O. 28, 1872 (extension of Arsenal avenue), and S. O. 30, 1872 (extension of Summit street) should be passed. [Concurred in.].....	1433
In the matter of the extension of William street.....	1434
In the matter of widening Meridian street, between First and St. Clair streets.....	1435
