Indices = numbers of an incomplete volume. Used in Academy list.

\* = incomplete volume.

o.s. = old series.

n.s. = new series.

Roman numerals = series.

The year (e.g. '95) = date of volume. Used where volumes are not numbered serially or number of volume was unknown.

N.D. = Notre Dame.

W. = Wabash.

D. = DePauw.

R.P. = Rose Polytechnic.

S.N. = State Normal School.

F. = Franklin.

P. = Purdue.

B. = Butler.

E. = Earlham.

ACAD. = Indiana Academy exchanges deposited in the State Library at Indianapolis.

I.U. = Indiana University.

\*At the meeting of the Indiana Academy of Science for 1911 the compilers of this catalogue were appointed to collect and publish in the proceedings of the Academy a list of the Scientific periodical literature on file in the college and university libraries of the State, together with the exchanges of the Academy deposited in the Indiana State Library at Indianapolis. The lack of uniformity in the lists submitted, the incomplete statement of titles, and the occasional inexact use of the terms "complete" and "current" have probably resulted in some errors. This list may be made the basis of a very complete and exact catalogue.
