INDEX TO PORTRAITS

(Portraits reserved for those who have
served as presidents)

Cogshall, Wilber Adelman (1874-1951) 61:18

Deam, Charles Clemon (1865-1953) 63:30

Enders, Howard Edwin (1877-1958) 68:33

Friesner, Ray Clarence (1894-1952) 63:32

Huston, Henry Augustus (1858-1957) 67:62

Mahin, Edward Garfield (1876-1952) 62:36

Ramsey, Rolla Roy (1872-1955) 65:31

Wright, John Shepard (1870-1951) 61:31

PAST OFFICERS 1951-1960

<i>Year</i>	<i>President</i>	<i>Vice-President</i>	<i>Secretary</i>
1951	W. P. Morgan	J. E. Switzer	W. A. Daily
1952	P. D. Edwards	H. M. Powell	W. A. Daily
1953	H. M. Powell	A. H. Meyer	W. A. Daily
1954	O. B. Christy	R. Girton	W. A. Daily
1955	A. H. Meyer	W. H. Johnson	W. A. Daily
1956	R. E. Girton	John Mizelle	W. A. Daily
1957	W. H. Johnson	W. A. Daily	H. E. Crull
1958	W. A. Daily	A. A. Lindsey	H. E. Crull
1959	R. E. Cleland	A. T. Guard	H. E. Crull
1960	A. T. Guard	L. H. Baldinger	W. W. Bloom

<i>Year</i>	<i>Treasurer</i>	<i>Editor</i>	<i>Press Secretary</i>
1951	F. J. Welcher	A. A. Lindsey	B. Moulton
1952	F. J. Welcher	A. A. Lindsey	B. Moulton
1953	F. J. Welcher	B. Moulton	J. A. Clark
1954	F. J. Welcher	B. Moulton	J. A. Clark
1955	F. J. Welcher	B. Moulton	J. A. Clark
1956	F. J. Welcher	R. A. Laubengayer	J. A. Clark

INDEX
INDIANA ACADEMY OF SCIENCE PROCEEDINGS

Volumes 61 (1951) — 70 (1960)

- Abandoned railroads, 65:162
ABBOTT, J. H., 69:162
Aboriginal American medicine and surgery, 61:49-53
Academy, The Indiana, from horse and buggy to jet, 70:194-199
Acer, effect of topography on the distri., 61:70
Acetate, aluminum solutions instead of ferric in qualitative testing for, 66:98
Acetic acid, metabolism in tomato, 62:101
Acetylacetone, reactions with phenylenediamines, 63:110-112
Acetyl-coenzyme A and succinate, requiring enzyme from *Azotobacter*, 64:53
Acetylenic alcohols, determination of esters, 66:91-94
Acid-catalyzed decarbonylation of 2, 4, 6 - trimethoxybenzaldehyde, 65:66
 accompanying condensation reaction, 70:99
 anomalous oxidation reaction: 70:119-122
Acidophilic granules in basophiles of laying hens, 64:256
AKER, R. F., 63:60
Acorns in Indian diet, 62:56-62
Actinophage, 63:64
Actinoplanes, unusual keratinophilic microorganism, 63:83-86
ADAIR, R. K., 61:276
ADAMS, CLIFFORD, 63:198, 201
ADAMS, J. R., 70:205
ADAMS, N. E., memorial, 70:31-32
ADAMS, T., 64:254
ADAMS, W. R., Aboriginal American men and surgery, 61:49-53; 67:90
ADELBERG, M., 61:273
ADYE, J. C., 69:100
AE, SHIGERU ALBERT, 65:230
Aedes grossbecki and *Aedes aurifer* in Indiana, 68:149
Aedes thibaulti Dyar and Knab, in Indiana, 70:137
Aeolosoma, reproduction of, 63:269
Aerial applications in agriculture, 69:150
Aerosol applications, fogging, 61:152-158
Agabus confusus, distribution and habit of, 62:171
Age changes in liver as studied by light and electron microscopy, 69:325-331
 of Tolleston sands, 61:176-179
 pyramids for Indiana's counties and larger cities, 67:187-193
Agglutination, red blood cells, 63:60
 reactions, effect of formaldehyde on red cell, 67:98
Aggression and avoidance in C57BL mouse, 67:298
Aging of reagent solutions in precipitation processes, 67:128-134
Agriculture, Sullivan county, 64:191-193
Air-conditioned light rooms for growing plants, 63:230
ALBRIGHT, L. E., 65:222
Alcoholic beverages and consumption, 64:50
Alfalfa, insects affecting seed production, 62:181-197
 insects, influence of residual and non-residual insecticides on, 65:145-148
 yields in southern Indiana from predicted soil and plant analyses, 61:167-170
Algae
 Cosmarium botrytus Meneghini, some aspects of sexuality and genetics, 64:56
 growth of, 62:99
 lyophilization, 64:61
 of Lake Wawasee, 62:98
 planktonic myxophyceae, 68:43-57
 some of St. Meinrad area, 69:131-133
 Spirogyra, study of variation in, 64:56
 unusual forms from Indiana, 69:119-122
Alkali bee, artificially induced nesting, 67:135
Alkylation of 4-Nitrophthalimide, 63:108-109
Allen County, precambrian rocks, 62:234-243
 population changes, 62:244-249
 streams, 62:244-249
 reaction of the Gabriel synthesis, 62:158-159
ALLEN, H. L., III, 64:237
ALLEN, M., 62:144; 64:92
ALLEN, M. A., 64:56
ALLEN, W. R., memorial, 65:25-26

- Alpha-conidendrin, bacterial dissemination of, 66:55
- Alpha particle irradiation of germanium at 4.2°k, 67:278
- particles, scattering of 19-Mev, by Ne, Al, A and Cu, 66:297
- particles scattering by N¹⁴, 63:264
- ALSTON, R. E., 64:57
- Alternate routes of metabolism, 62:64
- Alternation of responses as function of hunger drive level, 61:280
- Aluminum-bromide-hydrocarbon complexes, 63:140-142
- Aluminum, gaseous lower valence states of, 61:115
- in qualitative test for acetate, 66:98-99
- American cockroach, *Periplaneta americana*, susceptibility of the ootheca to various insecticides, 68:196-198
- American pharmaceutical association, 62:278
- Ammocoete larvae of *Lampetra lamoteni*, 62:318
- Amphibians and reptiles, distribution in Indiana and Illinois, 66:328
- Amylase, cell-free, of *Bacillus stercorothermophilus*, 61:64
- bacterial, 62:65
- Analysis by extraction and high frequency measurement, 66:81-85
- ANDERSON, C. E. and S. N. POSTLETHWAIT, The organization of root apex of *Glycine max*, 70:61-65
- ANDREW, K. L., 61:273; 62:291
- ANDREW, W., Age changes in liver as studied by light and electron microscopy, 69:325-331
- Anesthetics, fluorine containing, 64:92
- Angel site, 64:51
- identification of unmodified faunal remains from, 70:46
- Animal activity, use of oxygen dissociation curve in interpretation, 64:258
- Annual rings, relation to multiple flushes of growth in species of oak, 67:104-106
- Anthocyanin synthesis, use of tissue culture for study of, 66:61
- genetic control of, 64:57
- Anthophilous insects of Indiana
- I. A preliminary annotated list of the Apoidea, 66:125-140
 - II. A preliminary list of the Diptera collected from blossoms, 67:160-170
- Anthropological groupings, among North American Indians, musical styles and, 69:65
- methods, use of tape recording, 61:48
- Anthropology (see also entries under following author names, only those who submitted manuscripts included: Adams, W. R.; Blasingham, E. J.; Driver, H. E.; Faulkner, C. H.; Grollig, F. X.; Helmen, V. R.; Huelsman, B. R.; Johnston, R. B.; Klinge, P.; Martin, F. P.; Murray, R. W.; Neumann, G.; Neumann, H. W.; Ostertag, W.; Raibourn, D. D.; Wadia, M. S.)
- abstracts, 61:46-48; 62:52; 63:45-46; 64:49-51; 65:48-49; 66:45-46; 67:90-91; 68:58; 69:65; 70:46-47
- Aboriginal American medicine and surgery, 61:49-53
- Acorn in North American Indian diet, 62:56-61
- Alcoholic beverages in native North America, 64:50
- Anthropometric traits, 68:59-64.
- Australopithecinae* among human fossils, 63:47-53
- Estimation of prehistoric populations, 69:78-82
- Field methods and C¹⁴ dating, 61:46
- New archeological material from Marion county, 62:53-55
- New word affiliations of Neolithic Baikal people, 63:54-56
- Pagan marriage in Guatemala, 68:70-71
- Political organization of Tewa Indians, 68:65-69
- Pottery figurine heads from Mexico, 66:53-54
- ornaments from Rio Tapajos, Brazil, 67:92-95
- Somatotyping for secondary schools, 61:54-61
- Statistical analysis in archeology, 68:65-69
- Sunflowers from Tilarosa Cave, New Mexico, 61:47
- Tape recording in anthropology, 61:48
- Wife stealing in central Mexico, 67:90
- Yankeetown pottery, 61:46
- Anthropometric traits, genetic and environmental factors, 68:59-64
- Antibiotic substances from Ranunculaceae, 70:83-86
- Antibiotics, effect on bacterial reduction of triphenyltetrazolium chloride, 62:63
- Anticoagulant properties of phosphorylated proteins, 63:127-130
- Antigen-antibody reactions in agar, 64:52
- Antigens, 61:64; 63:270
- Antimicrobial drugs, 64:53

- Anxiety, instrumental measures of, 61:280
 measurement in clinical situations, 64:241
- Aploparaksis*, new species from fox sparrow, 61:305-307
- Apple scab pathogen, biochemical response of *Malus atrosanguinea* to, 70:53
 trees in southern Indiana, insect fauna of, 68:205-217
 variety improvement, current status, 68:87
 virus diseases, investigations on, 68:88
 virus diseases, further observations on, 70:54
- Aquatic plants, Verduin method for measuring photosynthesis and respiration of, 62:105
- Araneology of Indiana, 62:299-317
- Arawak community, 64:50
- Archeology, 15 years excavation at one Angel Site, 64:51
 Aleutian, 63:45
 Marion county, Indiana, 62:53-55
 statistical analysis in, 68:65-69
- Areal differentiation of Indiana counties, 66:159-166
 specialization in Sullivan county, 64:191-193
- ARMACOST, R. R., 62:103
- Aromatic thiols, improved preparation of, 66:79
- Arthropod infestation, unusual cases, 62:298
- Arthur Herbarium, plant rusts, 63:231
- Artifacts, baked clay, in Indiana, 61:47
- Ascaridia galli*, effect of choline deficient diet on, 64:288-291
- Ascaris eggs*, effects of radiation on, 65:225
- Ascaris lumbricoides* var. *suum*, ova of, 62:323-324
- ASH, C. R., Tingoidea of Tippecanoe county, Indiana, 63:185
- "Ask the Biologist," 62:103
- Asters, cyto-genetics of some from northern Indiana, 62:104
- Aster sagittifolius*, hybridization with *A. Shortii*, 61:66
- Asymmetry of anuran gonads, 61:292-295
- ATHOW, K., 68:86
- Atomic energy and the Ohio River, 64:219-223
 potential functions, one dimensional, 68:119
- Attitude, measurement, toward effective teaching, 62:292
 importance of favorable, in determining effectiveness of neutral-wet-pack therapy, 61:279
- Audio-visual aids, in teaching general chemistry, 68:121
 devices, in the teaching of general chemistry laboratory, 68:121
- Auditory fatigue, relation to Kappa, 66:323
- Aureomycin, effects of serum proteins of rabbit, 68:139-143
- AUGHENBAUGH, N. B., 69:184
- Australopithecus*, its place among human fossils, 63:47-53
- Aux Vases sandstone, Putnam county, 63:203-207
- AVERS, C. J., 61:66
- Axenic cultivation of planarians, 67:301
- Azeotropes, estimation of composition, 62:144
- Azotobacter*, oxidation of acetate by extracts of, 66:56
- Azotobacter vinelandii*, 64:53
- Aztec corn festival, 62:52
- BABCOCK, R. F. and R. B. FISCHER, Aging of reagent solutions in precipitation processes, 67:128-134
- BACHMAN, G. BRYANT and MARTIN HAMER, Synthesis of symmetrical diquinolyguanidines, 61:117-120
- BANCHOFFER, C. S., 61:62; 65:225
- Bacillus subtilis*, Mn⁺⁺ requirement, 65:50
thuringiensis Berliner for the control of caterpillars, 69:150
thuringiensis for insect control, 70:137
- Bacteria anaerobes, advances in study of, 63:62
 -free planarian worm, 65:237-242
 in soil, 64:54
 microtechniques for identification, 61:64
- Bacterial cell, action of cetyltrimethylammonium bromide on, 70:48
 cell walls, 63:59
 internal structure, 64:54
 population change, 64:52
 pyrogens, 63:59
 resistance to antibiotics and surface active agents, 68:79
 respiration and growth in soil sterilized by high energy electron beam, 68:79
- Bacteriological problems in food, 67:99
- Bacteriology (see also entries under following author names, only those who submitted manuscripts included; Culbertson, C. G.; Dippell, R. V.; Ebert, J. D.; Fletcher, R. I.; Fraser, D.; Hagan, C. W., Jr.; Hull, R. N.; Murray, R. G.; Pace, N.; Pfau,

- C. J.; Powell, H. H.; Sonneborn, T. M.; Thompson, R. L.; Weiss, E.)
 abstracts, 61:62-65; 62:63-66; 63:59-63; 64:52-55; 65:50-52; 66:55-56; 67:98-100; 68:78-80; 69:99-100; 70:48-50
 Antigen-antibody reaction in agar, 64:52
 Bacterial pyrogens, nature, 63:59
 Fixation effect on internal structure of bacteria, 64:54
 Fixed rabies virus, inactivated by propiolactone, 68:81-85
 Growth of mammalian virus in vitro, 62:92-94
 Isotopes used in microbial physiology, 64:55
 Lysozyme and gram positive bacteria, 62:63
 Macronucleus of *Paramecium aurelia* by electron microscopy, 66:60
 p-Aminobenzoic acid, development and role in early chick, 62:72-79
 Protoplast and cell infesting agent from T₂ bacteriophage, 69:101-104
 Radiation damage in bacteriophage, 61:62
 Respiration in *Clostridium perfringens*, 61:62
 Rh factor, chemical nature, 61:64
 Tissue culture, cinephotomicrography, 62:67-71
 counting infectious viral particles, 62:95-97
 newer methods and applications, 62:87-91
 Bacteriophage, 61:62
