Use of Human Leukocyte Antigen Test Results to Establish Paternity
Second Edition of a Casebook Classic

PROPERTY, WEALTH, LAND
Allocation, Planning and Development

By Luther R. McDougal III and Myres S. McDougal

Provides a Policy Orientation
For Developing Evaluative Skills

In its first edition, Property, Wealth, Land was a radical departure for property law casebooks. Its goal was to develop student skills in identifying, articulating and evaluating conflicting community policies regarding land use and real property law.

While some recent texts have attempted to provide such an orientation, most currently available property casebooks still focus on historical materials and technical doctrines without raising policy issues.

With the second edition of Property, Wealth, Land professors and students now have a casebook which encourages critical and analytical evaluation, while making the study of property law relevant to contemporary social issues. This probing new casebook provides a broad coverage of land law through recent cases dealing with such topics as zoning, financing, local planning, natural resources, eminent domain, wealth transmission and riparian rights.

Property, Wealth, Land provides an interesting introduction to property law for today’s law students who seek a meaningful correlation between their studies and contemporary society.

$26.50* appx. 1100 pages, hardbound

Newly published by Shepard's/McGraw-Hill

Here's expert guidance on nearly every aspect of locating, obtaining, understanding and preparing engineering evidence for use in litigation.

Transportation accidents, natural disasters, defective products and construction problems all require expert engineering evidence if they are to be successfully tried in court. Now, you can have a comprehensive and detailed discussion as to the discovery, understanding, and application of engineering evidence in these types of cases.

ENGINEERING EVIDENCE, unique suited to your needs in court, will help you demonstrate clearly and completely the engineering principles relating to your case.

Here is but a sample of the type of guidance you'll receive:
1. You'll be able to quickly recognize those areas where you are likely to need expert evidence.
2. You'll see how to control the costs of gathering evidence and retaining experts.
3. You're provided with an exhaustive list of experts, from all over the country, in a wide range of engineering specialties.
4. You'll have a step-by-step procedure to use for conducting your preliminary investigation.
5. You're given the tools for evaluating your case: Your chances of success, the cost of litigation, the time involved.
6. You'll see how to prepare a complete history of the case, from manufacturer specifications right through to the accident.

7. You'll have practical guidance for handling evidence and preparing your expert witness for the courtroom.
8. You're provided with helpful tips for cross-examining an adversary's expert.
9. You get a checklist of points to remember for direct and cross-examination.
10. You'll have a Table of Cases listing appellate decisions which have a bearing on engineering evidence and a series of typical cases in which specific engineering evidence is obtained, prepared, and presented in trial.

But ENGINEERING EVIDENCE goes a step further. It covers other special areas of interest you'll want to have while handling expert engineering evidence: Besides a glossary of basic engineering concepts and terms, you'll discover the most effective use of computer data. You'll see the legal relationship between an owner, builder, and designer. You get the preventive law aspects of engineering. Plus, you'll have an extremely useful table matching types of product defects with corresponding governing codes.

Hardbound; 1981 ed.; Approx. 500 pgs.; Periodic supplementation planned; 1 volume $60 plus $2.00 postage & handling.

Available for 30 days Trial Examination

☐ Engineering Evidence ......$60 plus postage & handling...........$ 2

Please send me future materials such as pocket parts, supplements, replacement pages, advance sheets and replacement, revised, recompiled or split volumes, future new editions and additional companion or related volumes. At any time, I will be free to cancel or change my order for upkeep services. Prices subject to change without notice.

☐ Bill me. My order includes future upkeep service
☐ Charge my Shepard's Acct #
☐ I'll save postage by enclosing full payment plus applicable sales tax.

Brighten Things Up with Interest on Checking

Earn 5 1/4% compounded daily on the money you keep in your checking account.

Think of it. With this exciting new Indiana National feature, you can earn interest on your checking funds for the first time. Maintain a minimum $1,500 balance, and you pay no service charge, no matter how many checks you write.*

It's true, other financial institutions can now offer interest on checking. But none offer you more interest than our 5 1/4%. And none give you the additional benefits of BANK BY PHONE, PASSPORT® Check Card and MONEYMOVER® 24 Hour Teller at no additional charge.

That's a good reason to change banks. Or, even combine other accounts you may have around town. Interest on Checking with no service charge . . . and the convenience of branch locations all over town.

Come in today to any Indiana National branch and ask about Interest on Checking. It might just brighten things up for you.

*If your monthly minimum balance falls below $1,500, your service charge is $3.00. Below $1,000, your charge is $6.00.

Nobody can read all the new law, but with...

THE UNITED STATES
LAW WEEK

you can keep up with the really significant new law

You know that thousands of decisions and rulings pour from the courts and federal agencies every year. LAW WEEK guards you against missing a single development of legal importance... yet saves you time by reducing your reading load!

To do this, LAW WEEK's staff of lawyer-editors research hundreds of opinions and rulings every week to find the precedent-setting few that make new law. These significant cases are digested for you under quick reference topic headings in the appropriate sections designated: 1.) New Court Decisions; 2.) Federal Agency Rulings; 3.) Supreme Court Opinions.

To save even more of your time, the more significant opinions and rulings appearing in all sections of LAW WEEK are highlighted in a special Summary and Analysis section—a five-minute, terse evaluation of the effect of these developments on current law.

A key feature of LAW WEEK is its high-speed reporting of U.S. Supreme Court opinions— in full text—accompanied by crisp and accurate summary digests. Mailed the same day they are handed down, these exact photographic reproductions of the Court's opinions eliminate the possibility of printing errors.

LAW WEEK also gives you full texts of all federal statutes of general interest, immediately after the President signs them.

And for easy reference, LAW WEEK is fully indexed—by topic and by case title—both for general law and Supreme Court actions.

Practicing attorneys: Write for details about our no-risk, 45-day approval offer.
